**catalan** (native)

**english** (fluent)

## /about

I have a diverse background in food chemist industry and craftsmanship, with a strong passion for technology, design and artisan creations. For many years I worked as a guitar luthier and food chemist. However, I have always been drawn to technology and programming, and I eventually decided to pursue a new career path in web development. After careful consideration, I decided to enroll in a tech bootcamp to learn full-stack web development

## /professional experience

### Herrera Guitars -

`//Luthier & workshop manager`  
(2018-2023)
